Preface

Hello and welcome to my Recorder Songbook!

In this book I've collected some of the most beautiful and most popular songs for recorder for you. This book can be used as a supplement to Voggy's Recorder Book or with any other recorder-school. This is not a book for absolute beginners; to get the most out of it, you should at least have mastered the basics of the recorder and be able to read traditional notation.

I've tried to sort the songs according to topics, so you can hopefully find a suitable song for most occasions. There's also an alphabetical songlist at the end of the book.

Voggy

In this book you'll encounter two notes that aren't explained in Voggy's Recorder Book: the note F# (F sharp) and the note Bb (B flat). You'll find them both explained, together with their fingering diagrams, in the appendix of this book. As an additional hint, our little Voggy holds up a "warning sign" if one of these notes is needed to play a particular song. This way, you can look them up in the appendix, should the need arise. Some other helpful things you'll find in the appendix are:

- *a table of the notes and their values,*
- *the most important meters (two of them; 2/4 meter and 6/8 meter are new for all of those who learned with Voggy's Recorder Book; you'll find them explained on p. 104).*
- *and fingering charts*

*so all the information you need is right at hand.
And now: have lots of fun!
Martina Holtz*
