# Hi!

*Welcome to my ABC of Music. My name is Voggy and on the following pages I am going to tell you a little bit about music. You will learn how to read and write music. I will also tell you some things about the most important musical instruments. In order to keep you from getting bored, I have come up with some fun games and riddles. You may read through the whole book from beginning to end or you may look up something that you have learned in your music lessons.*

*You can listen to all the songs on the CD. The little "CD-Voggy"  will always show you the track number. All of you who have already started playing an instrument can even play along with the songs.*

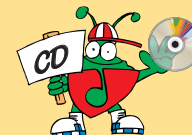

*Of course you may read this book all by yourself but I think it would be a good idea if you read it together with your parents or teacher. I wish you lots of fun with music. Who knows – maybe one day you will become a big star ...?*

*Your friend,  
Voggy*
